APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by Order dated April 4, 1983 from the Nevada Division of Environmental Protection, and the right will cease to exist when the Order is fully complied with. A totalizing meter must be installed to the inlet of the treatment plant and a measuring device placed on the outlet of the treatment plant and records of these measurements shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground-water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This permit is issued as a non-consumptive use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 1.0..... cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before..... February 27, 1985

Proof of completion of work shall be filed before..... March 27, 1985

Application of water to beneficial use shall be made on or before..... February 27, 1989

Proof of the application of water to beneficial use shall be filed on or before..... March 27, 1989

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed..... MAY 02 1985

Proof of beneficial use filed.....
